

CLEANING INSTRUCTIONS FOR GLASSLESS MIRRORS

1. Before attempting to clean mirror, use dry, compressed air to remove all dust and debris from the mirror surface.
2. To easily clean finger prints and splashes, use a window cleaner and a soft, dry, non-abrasive cloth.
3. Spray the window cleaner on the cloth until it is saturated but not dripping.
4. Wipe gently and do not scrub the mirror surface.
5. Any dirt particles that are on the cloth or the mirror may scratch the mirror surface.
