“Alvin Ailey American Dance Theater is the world’s most popular modern dance company. We have performed for over 25 million people in 71 countries across six continents since we started in 1958. Every time we arrive at a new theater, the stage conditions are different. But we take Harlequin vinyl floors and sprung floors with us everywhere we go so we can ensure consistently excellent conditions for our dancers.

“No matter where we are in the world, we’ve always been able to rely on Harlequin’s amazing staff and the superior quality of their products. That’s why Ailey has used **Harlequin Floors** for the past 20 years.”

Joe Gaito
