“In 50 years, Houston Ballet has evolved into a company of 60 dancers with a budget of \$33 million, making it the country’s fifth largest ballet company. We attract and train global talent, constantly create new work and lavish new productions, while maintaining the highest standards of excellence. For reliable solutions that help sustain the caliber of dancers on stage at Houston Ballet, we always turn to **Harlequin Floors**. For more than 20 years, we’ve trusted Harlequin for first-class customer service and superior products.

“**Harlequin Reversible Pro™** satisfies our needs on a number of levels. The reinforced inner fiber layer makes laying the floor simple, because the marley holds it shape. No more stomp, kick and stretch required. When we tour, there is no longer a need to acclimatize the floor to the temperature of the room after it’s been stored on a cold truck all weekend. The floor rolls out perfectly flat and all the spikes line up accurately every time. The first question our dancers ask me on tour: ‘Is this our floor?’ It is a great comfort for them to know we take our Harlequin floor wherever we go.”
