

CHURCH ESSENTIALS

CARPET & FLOORING

SnapSports

SnapSports Maple ShockTower looks and plays like a real hardwood floor without the high cost or maintenance. Eliminating the need for underlayment, ShockTower was engineered with performance and safety in mind. SnapSports ShockTower surfaces are designed to give an added level of 'cush' to reduce impact on joints and limbs, while the high-performance Maple option is aesthetically pleasing and easy to maintain.

Abacus Sports

Is your current gymnasium floor on its last legs? Worried that a long-term replacement will smash your budget? Here's your solution: Padenpor is an athletic flooring system installed with durable American-manufactured materials. It's affordable and will hold up for years without needing replacement.

Musson Rubber

Musson Sheet Rubber is a low-maintenance, long-life flooring that is excellent for high-traffic areas. The top-to-bottom wear surface allows scratches to be easily buffed out. The no-wax finish reduces maintenance costs because it does not require stripping, waxing, and sealing to maintain its appearance.

Harlequin Floors

Harlequin Floors has announced an improved version of its flagship vinyl performance floor, Harlequin Cascade, now with BioCote antimicrobial protection. BioCote antimicrobial technology is manufactured into Harlequin Cascade, creating a performance surface that is protected from microbes and resulting in a floor that is easier to keep hygienically clean.

SUNDAY MORNING HVAC FAILURE?

Power of Clean Energy (PCE) helps churches reduce utility costs and fix building challenges that they face. PCE utilizes clean energy technologies that are cost effective, but also cost saving. Technologies include, HVAC Analytics, Controls, and Design along with LED and Sanctuary Lighting. We recently completed a project with Canton First Baptist that will save the church over \$608,000 in utility savings!

Call us today to hear how much money your church could save:
