

“The quality and reliability of these floors, designed to prevent injuries and promote long-term physical health, have always stood out.”

“As the Artistic Director and Founder of Whim W’Him Seattle Contemporary Dance, I am delighted to share our experience with **Harlequin Floors**. Our brand-new state-of-the-art facility, the Whim W’Him Contemporary Dance Center in Seattle, Washington, has been transformed into a haven for creativity and movement, thanks to the exceptional quality of Harlequin’s flooring.

Whim W’Him Seattle Contemporary Dance, established in 2009, is committed to presenting innovative dance and cultivating a community where artists can explore the human condition. Our vision is to nurture and enrich lives through the power of imagination. To fulfill this, we know we need the best possible environment for our professional dancers and community. Along with our evolving Physical Therapy program, the installation of **Harlequin WoodSpring®** sprung floor and **Harlequin Cascade™** vinyl performance surface has been integral in our aspirations to ensure the safety, development, and well-being of our cherished artists.

Throughout my 22-year career as a professional dancer, performing globally, **Harlequin Floors** was consistently my preferred dancing floor. The quality and reliability of these floors, designed to prevent injuries and promote long-term physical health, have always stood out. This personal experience made the decision to choose **Harlequin Floors** for our new center an easy one.

We are grateful to **Harlequin Floors** for their contribution to our new facility and look forward to many years of creative exploration on these exceptional floors.”
